

Portfolio Solution

# Driving Repeatability Across Your Whole Ediscovery Portfolio

Do you know what your organization is spending on ediscovery?

Do you manage ediscovery as a series of disjointed projects?

Do you know how one case strategy worked versus another?

Move past the case-by-case approach and embrace ediscovery portfolio management.

- » Standardize ediscovery practices
- » Predict costs and achieve visibility into expense
- » Achieve visibility into ediscovery expenses and data sets
- » Increase collaboration across the team
- » Achieve significant gains in efficiency and cost savings

With one platform, one process, one team and one price, Kroll Ontrack empowers companies to collectively manage ediscovery as a portfolio - not one-off disjointed projects - encouraging a repeatable strategy that reduces risk and cost.

## Predict and Control Ediscovery Spend
